

CLAIM OR CLAIMS:

1. In a speaker cabinet, comprising:

a base cabinet which houses at least one speaker with at least one connection hole in one of the four sides,

at least one female connector centered on the said base cabinet connection hole,

at least one male connector which passes through said connection hole and attaches to the female connector,

whereby (a) a user of said speaker cabinet can secure a mating speaker cabinet in bearing to the first cabinet with said male connector and female connector and thereby increase the number of speakers in a speaker array, (b) said user can remove one or more speakers in the speaker array for easy transport or placement, (c) said user can secure within the speaker array different types of speakers without removing speakers from cabinet.

2. The base cabinet of Claim 1 further including a stacking corner to align connection holes in a plurality of said base cabinets.

3. The base cabinet of Claim 1 wherein said cabinet is used to amplify a musical instrument.

4. The base cabinet of Claim 1 wherein said sides of said base cabinet comprise four said connection holes.

5. The base cabinet of Claim 1 wherein said male connector is a cap screw.

6. The base cabinet of Claim 1 wherein said female connector is a slab base weld nut.

7. The base cabinet of Claim 1 wherein said male connector and female connector are conventional quarter turn fasteners.

8. The base cabinet of Claim 1 further including a pass through plate centered on said connection hole at the male connector to base cabinet interface.

9. The base cabinet of Claim 1 further including a series electrical connection and a plurality of parallel electrical connection.

10. In a speaker cabinet, comprising:

at least one series electrical connection,

whereby (a) a user of said speaker cabinet can connect one or more speaker cabinets in series.

11. The base cabinet of Claim 10 further including at least one parallel electrical connection.

12. The base cabinet of Claim 10 wherein said cabinet is used to amplify a musical instrument.
